

Rust Remover

Product properties

A highly active biodegradable agent. Dissolves rust and loosens seized parts in seconds. Offers optimal long-term protection against rust and corrosion and repels water. The product is free from resins and acids and does not affect paint, glass, rubber and plastics.

Area of application

To be used for corroded bolts, pins, locks, hinges, electric contacts, brake linkages, etc.

Application

Shake well before use! Spray evenly onto the parts to be treated.

Consumption

Depended on contamination

Reaction time

Depending on the degree of contamination and corrosion

Technical data

Physical state: aerosol

Colour: yellow

Odour: characteristic

Ignition temperature: > 200 °C

Density at 68 °F: 0,705 g/cm³

Water resistant

Solvent content: 85,5 %

Available size	Item no.	PU
400ml	22052	12
