

DPF Clean

High Power Cleaner for Diesel Particle Filters

Product properties

- permanent and complete filter cleaning while driving
- no assembling, no disassembling, no standing times, no troubles
- reduces ignition temperature of the soot collected in the diesel particle filter
- no formation of secondary emissions

Area of application

Suitable for all diesel engines with particle filter, can be mixed with all diesel fuels.

Application

Add to the diesel fuel tank before filling up. Regular use every 3 months is recommended.

Consumption

250 ml for 60 ltr. diesel

Reaction time

Works during operation

Technical data

Physical state: liquid

Colour: clear/colourless

Odour: aromatic

Flashpoint: 62 °C

Ignition temperature: > 200 °C

Vapour pressure (at 68 °F): 20 hPa

Density at 68 °F: 0.78-0.82 g/cm³

Water resistant

Available size	Item no.	PU
250ml	43241	24
