

# Bio Multi Spray

## Product properties

PRO-TEC Bio Multi Spray - this allround lubrication spray combines the properties of penetration oil, lubrication oil, anti-corrosion oil, moisture displacement, cleaning and preservative agent in one product. The product leaves a soft film on the parts treated and protects all moving parts and the entire auto-electrical system against corrosion and oxidation. Penetrates and drives away moisture, removes stubborn residues and loosens solid incrustations. Bio Multi Spray prevents squeaking and keeps moving parts operating smoothly. Treats rubber components and prevents them from becoming stuck with frost. It stops leakage current, eliminates short circuits, cares for and protects the entire electrical system. This neutral product does not attack paints, metals, wood or plastics.

## Area of application

Universal use in workshops and industry. For all moving parts such as hinges, locks, bolts, clamping and plug connections, cables, among other care and protection of the entire electrical system.

## Application

Shake well before use! Clean the surfaces to be treated and spray evenly. Spray Bio Multi Spray onto the pre-cleaned parts to be treated.

## Consumption

Depending on the application

## Reaction time

Works permanently

## Technical data

Physical state: aerosol

Colour: clear/colourless

Odour: characteristic

Initial boiling point and boiling range: < 0 °C

Ignition temperature: > 200 °C

Density at 68 °F: 0,699 g/cm<sup>3</sup>

Water soluble

Available sizes	Item no.	PU
500ml	P2981	12
