

# Brake Cleaner Spray

## Product properties

An effective product for the cleaning of brakes, carburettors, clutch and transmission parts. It removes oil, grease, silicone and resins from all surfaces. Gentle to all materials.

## Area of application

Universal application in workshop and the industrial area.

## Application

Remove any loose dirt and spray plenty of Brake Cleaner onto the areas to be cleaned. Leave to work and to drain for a few minutes then clean off with a suitable cloth. Repeat the process in the event of stronger contamination.

## Consumption

Dependent on degree of contamination

## Reaction time

approx. 60 sec.

## Technical data

Physical state: aerosol

Colour: clear/colourless

Odour: characteristic

Initial boiling point and boiling range: 78 °C

Flashpoint: -9 °C

Lower explosion limit: 0,8 Vol.-%

Upper explosion limit: 12,0 Vol.-%

Ignition temperature: > 200 °C

Vapour pressure (at 68 °F): 5000 hPa

Density at 68 °F: 0,75 g/cm<sup>3</sup>

Water soluble

Solvent content: 96,5 %

Available sizes	Item no.	PU
500ml	35011	12
