

DPF Power Cleaner

High Performance Diesel Particulate Filter Cleaner

Product properties

This High Power Cleaner for Diesel Particle Filters is a special Diesel Additive Solution which is used as a regeneration help in Diesel Particle Filter Systems. Reduces ignition temperature of the soot collected in the particle filter which ensures permanent and complete filter cleaning while driving. The most economical way of particle filter cleaning and protection! The product can be used in all diesel engines and mixed with all diesel fuels.

Benefits:

- no assembling or disassembling, no standing time, no troubles
- reduces ignition temperature of the soot collected in the diesel particle filter
- no formation of secondary emissions

Area of application

Suitable for all diesel engines with particle filter, can be mixed with all diesel fuels

Application

Please pay attention to the dosage instructions! Add to the diesel fuel tank before filling up. 375 ml are sufficient for 60 to 80 liters of diesel fuel. Regular use every 3 months is recommended. **Attention, do not overdose!**

Consumption

375 ml sufficient for 60 to 80 liters of diesel

Reaction time

Works during operation

Technical data

Physical state: liquid

Colour: clear/colourless

Odour: aromatic

Flashpoint: 62 °C

Ignition temperature: > 200 °C

Vapour pressure (at 68 °F): 20 hPa

Density at 68 °F: 0.78-0.82 g/cm³

Water resistant

Available sizes	Item no.	PU
375ml	33450	28
1000ml	33459	12
5L	33451	4
