

Automatic Transmission Conditioner

Product properties

This powerful additive package can reduce friction, improve shifting and help recondition seals and gaskets. Resulting in smoother gear changes and improved component life. This semi synthetic product represents the latest development in transmission fluid technology. The finely balanced formulation is compatible with all A.T.F. products. As a fluid it exceeds all current specifications for passenger vehicle Auto Transmissions Fluids.

Area of application

For all torque converter, CVT and DSG transmissions except wet clutch.

Application

Simply add to transmissions. Reduce the fill of auto transmission fluid by the contents of the bottle. 375 ml for cars, 10 % of the transmission oil volume for trucks.

Consumption

375 ml sufficient for one passenger car

Reaction time

Works during operation

Technical data

Physical state: viscous

Colour: red

Odour: mild

Flashpoint: > 100 °C

Density at 68 °F: 0.87 - 0.92 g/cm³

Water resistant

Available sizes	Item no.	PU
375ml	33178	28
