

Power Steering Nano Protect

Product properties

Innovative formula based on latest Nano-Technology. The highly effective Nano anti-friction barrier protects all the internal surfaces of the power steering system and differentials against wear and tear. The highly efficient formula ensures safe and smooth operation of the power steering and eliminates unpleasant "rattling" noises. Also suitable for sports cars.

Area of application

Power steering and differentials

Application

Before filling up this product, drain the equal quantity of oil.

Consumption

100 ml sufficient to treat 1.5 - 2 litres oil.

Reaction time

Works during operation

Technical data

Physical state: viscous

Colour: brown

Odour: mild

Flashpoint: > 100 °C

Density at 68 °F: 0.89 - 0.92 g/cm³

Water resistant

Viscosity / kinematic (at 104 °F): 17,2 mm²/s

Available sizes	Item no.	PU
100ml	33188	24
