

Cleaner for Manual Transmission & Differentials

Product properties

Highly active special cleaner for dissolving contaminations and resin in the whole system. Because of special lubrication components, all aggregates are protected while the cleaning process is in progress.

Area of application

In Systems of manual transmissions and differentials

Application

Add the cleaner before changing the gearbox oil. The appropriate formula of usage is 100 ml cleaner per litre oil. Move the vehicle for approx 10-15 min with frequent changes of gear. Afterwards drain the gearbox oil and refill new oil according to the manufacturer's guidelines. The product can be easily recycled with old oil.

Consumption

100 ml for 1 ltr. oil

Reaction time

approx. 10-15 minutes

Technical data

Physical state: liquid

Colour: violet

Odour: aromatic

Initial boiling point and boiling range: 180 - 220 °C

Flashpoint: > 61 °C

Ignition temperature: > 200 °C

Vapour pressure (at 68 °F): 20 hPa

Density at 68 °F: 0.82 - 0.92 g/cm³

Water resistant

Available sizes	Item no.	PU
1L	60026	12
