

Protection for Manual Transmissions & Differentials

Product properties

Highly effective formula protects against increased friction. It ensures an optimum and a low-noise operation over the whole temperature range. Because of the reduced friction the entire degree of effectiveness is improved and the fuel consumption optimised.

Area of application

In manual-, differential- and converter transmissions

Application

Add to the system 100 ml of the product per litre oil. We recommend the pre-treatment with cleaner for manual, differential and converter transmissions (Art.No. 60026) to achieve optimal result.

Attention:

The product can be easily recycled with old oil. Irritating to eyes. Harmful to aquatic organism, may cause long-term adverse effects in the aquatic environment. Keep out of the reach of children. If swallowed, seek medical advice immediately and show this container or label.

Consumption

100 ml for 1 ltr. Oil

Reaction time

Works during operation

Technical data

Physical state: viscous

Colour: brown

Odour: mild

Flashpoint: > 100 °C

Density at 68 °F: 0.89 - 0.92 g/cm³

Water resistant
