

Radiator Conditioner

Product properties

Radiator Conditioner protects against rust, corrosion and lime scale. It lubricates valves, thermostats and the water pump. It improves the heat exchange and keeps the coolant's pH-value stable. Radiator conditioner is compatible with all antifreeze brands.

Area of application

For use in all water-cooled engines.

Application

Add to cooling system regularly at every advised service interval. For best results, we recommend flushing the cooling system with powermaxx Radiator Flush beforehand.

Consumption

300 ml sufficient to treat cooling systems of 4 - 8 litres capacity.

Reaction time

Works during operation

Technical data

Physical state: liquid

Colour: clear/colourless

Odour: odourless

pH-Value (at 68 °F): 9 - 10

Ignition temperature: > 400 °C

Density at 68 °F: 1,09 g/cm³

Water soluble

Available sizes	Item no.	PU
300ml	33306	24
