

Air Intake Cleaner Triple X Petrol

Triple X - Air Intake Cleaner Petrol

Product properties

bluechem "Triple X" is the latest development for air intake cleaning of petrol powered engines. Even stubborn residues are completely dissolved and removed. "Triple X" cleans and lubricates the complete air intake system and combustion chamber as well as inlet valves and also the lambda sensor and protects against new deposits.

Triple X – cleans, lubricates and protects!

Ensures a smooth engine running, reduced fuel consumption and exhaust emissions.

Area of application

"Triple X" is compatible for all kind of engines e.g. lambda probe, catalytic converter and is suitable for direct injection as well.

Application

„Triple X“ is exclusively developed for application with the Clear Flow machine and suitable adapters (Adapter S-Form for Otto engines or Adapter Flex-Form for direct injection engines). The product must be used in strict compliance to the instructions of use of the Clear Flow and its adapters.

Consumption

375 ml for 1 application

Reaction time

Works during application

Technical data

Physical state: liquid

Colour: clear/colourless

Odour: aromatic

Initial boiling point and boiling range: 110 - 120 °C

Flashpoint: 24 °C

Lower explosion limit: 0,6 Vol.-%

Upper explosion limit: 12 Vol.-%

Ignition temperature: > 200 °C

Vapour pressure (at 68 °F): 20 hPa

Density at 68 °F: 0.82 - 0.84 g/cm³

Water resistant

Available sizes	Item no.	PU
375ml	33371	28
5L	33370	4
10L	33374	1
20L	33373	1
200L	33372	1
1000L	33375	1
